2) Interview your parent on this album using the following questions:

Did the song sound like you expected based on the lyrics? Why or why not?

What was your favorite & least favorite part of this song? Why?

Does this song remind you of any songs or genres you've heard before? If so, what? How does it compare to what you listen to?

4) **For Parents:** How did your child do as an interviewer? Did you discuss anything in addition to the questions above? What was the most meaningful part of this conversation?
